ABOUT ME

University student pursuing a degree in game production at Howest. I am passionate about game narrative and mechanics, I have participated in 3 Game jams and co-organized 2. Something that motivates me is creating games that can emotionally move players.

EDUCATION

Bachelor of Technical Arts
Howest University
2022 - present

Science
Our Own English High School
2009 - 2021

EXPERTISE

Game Design

Adaptability

Game Art

Unity Development

Prototyping

WORK/ PROJECT EXPERIENCE

2026(February) - 2026(July)
Intern - Pixel Nexus | Ghent, Belgium

Game Designer | Programming

During this internship. I had worked under Duckosaurus on thier title Dino Duck Mayhem. I worked on balancing, designing, implementing features in Godot. This built up my foundational skills in game programming and designing.

2025(September) - project
Group Projects - Howest | Kortrijk, Belgium

Designer

I have worked with a team in group projects to bring our vision to life with our project "sombre" this is quite a new learning experience for me and have had a large learning curve since my last internship under an art manager

2025(april) - project
Stroate Game Jam | Kortrijk, Belgium

Co-organizer

As a Co-organizer I was working with friends and organized a fun game jam since we were all eager to get hands on experience with team building and I am someone who enjoys working with a community
