CEO of Duckosaurus

ABOUT ME

I am a game developer passionate about game narrative and mechanics. I've studied Game Production in **Howest Digital Arts and Entertainment** and have participated in 4 Game jams and co-organized 2. This gave me strong foundations in teamwork, communications and leadership skills.
I am confident in working with **C#, Unity Engine, Blender** and **Godot**, I'm open to learning new languages and engines.

WORK/ PROJECT EXPERIENCE

Game Design / Programming Intern
Feb 2026 - Jul 2026
Duckosaurus - Dino Duck Mayhem — *Ghent, BE*

Technical designer for their Dino Duck Mayhem title.

- Engagement analysis of DDM/ survivor like games - Pitching changes to improve engagement.
- Actively contributing to the development of DDM - Feature & Character implementation in **godot** using **C#** and **GDScripts.**
- **Narrative design** - Created main narrative and characters - worked with word docs to make character sheets and narrative pacing documents.

Game Designer / Programmer
Jan 2025 - Sept 2025
Howest Group Project - Sombre — *Kortrijk, BE*

- Designed and prototyped core mechanics of "Sombre" within **Unity** using **C#.**
- During development - Worked with unity lighting math and physics based character controller to implement different types of shadows.
- Implemented gameplay mechanics such as lever systems.

Generalist
Apr 2025
Shoppers Havoc — *Kortrijk, BE*

- Iterated and programmed core mechanics in one week.
- Created a fun/ silly narrative along with 4 different characters and documented within a GDD.

Co-organizer
Apr 2025
Stroate Game Jam — *Kortrijk, BE*

advertising, collaborating and communicating within the organizers to make sure everything runs smoothly
